COURSEWORK

UNDERGRADUATE

Data Structures

Algorithms

Operating System

DBMS

OOPs

SKILLS

PROGRAMMING

Java • Javascript

C++ • CSS

Frontend:

- HTML

- React

- Bootstrap

- Material UI

- Android

Databases:

- MySQL

Languages:

- English

- Hindi

SOFT SKILLS:

Active Learner

Adaptive Behavior

Team Player

Leadership

CERTIFICATIONS

CERTIFICATION JAVA PROGRAMMING WITH DS/ALGO Udeemy

An extensive course on core and advanced java with Data structures and algorithms.

CERTIFICATION SOFTWARE TESTING NPTEL

An extensive course on Software Testing.

PROJECTS

HOTEL MANAGEMENT SYSTEM

In this project me and my team have made a management system used for hotel bookings using python. I have done the research part ,data collection and a part of coding. In this project we have made an easy and reliable booking system for hotel chains.

VPN SECURITY AND THREATS

Research paper based on VPN security and threats- In this paper we tried to find out the security threats caused by using VPN and is VPN is better option in future use with good private security or not.

SMART PARKING SYSTEM

In this project we are building a smart parking system which uses smart detectors and smart parking maps to optimize parking system. My role in this project was all research based and finding better alternatives to improve our project.

ACHIEVEMENTS

5 star on Hacker rank in Java Programming

EXTRA ELECTIVES

1. JAVA and Complete Data Structures in Java.
2. Complete Python Developer.
3. Complete Web Development Bootcamp .
4. Complete JFo foundation and databases course on Oracle Academy
